SUMMMARY

For the past half a year I've been freelancing. I am experienced in Web Development and Web Automation programming.

EXPERIENCE

Freelance

- Developing and maintaining website connected with OpenWeatherMap API
- Developing websites with Flask and NoSQL – designing databases.
- Making script to download user's Allegro auctions with photos and save them to the database
- Making automated scripts with Python and Beautiful Soup

SKILLS

Programming

- Python
- JavaScript (React)
- Linux
- Flask
- MySQL

Personal

- Willing to learn new technologies
- Passionate about doing a good job
- Strongly motivated

Languages

- English – Fluent
- Polish – Native

ACTIVITIES

I love new technologies, in my free time I create react web apps and research information about blockchain. I also practice my English accent and keyboard typing speed.
